About

As a full stack developer, I have extensive experience with both front-end and back-end development. Performing strongly in cross-functional teams, and conducted code reviews. Overall, I am flexible and adaptable developer who is committed to delivering high-quality web solutions.

Education

Bachelor of Science in Pure Chemistry

Ambrose Alli University

Mar 2017

Personal Experience

FullStack Developer

Keeper | 2024

Link: <https://github.com/abodiamhe/keeper>

- In this project, I aimed to recreate the Google Keep functionality by implementing the add note and delete note. With Keeper web app, you can keep note of details, information, ideals you don't want to forget.

Tech Stack: React, PostgreSQL, JavaScript

FullStack Developer

Forkify | 2024

Link: <https://github.com/abodiamhe/forkify-project>

- Forkify app allows users to search over 1,000 recipe from the forkify-api using AJAX call. Also allow users to bookmark and add recipes.

Tech Stack: Sass, APIs, JavaScript
